

Bønnebrev juli 2018: Egypt

Først noen ord fra en herlig partner (T):

We want to give glory to God for these things; we are so thankful to settle down in our office. We had a refreshing visit from Norway in May and it was a very important time for us. Also, we had a visit from a Swedish friend, and we are very thankful because he had the chance to pray and prophecy over our team.

In the ministry, we have 2 new members added to our team. And this is a great blessing as there were many changes before that with the team.

Here are some prayer requests:

For the family:

For our health especially. My children (A & A) both have problems with their immunity system. And for me i feel some attack and need strength to keep standing.

We are thankful for A's return from the discipleship school, she had a great time and many testimonies from Cypr. and from her outreach in Ethiopia.

For the ministry:

As a team, we need prayer for our relationships to be filled with more love and there would be no misunderstanding.

Also, we are renewing our website and we are praying for the grace of God to guide us.

And we are planning an event for marriage counseling and raising awareness. We need prayer for it that the Lord would use us to impact these people.

For the church:

There is a spiritual warfare that is dividing up the priests and pastors. Some bishops are against the pope and they are making people stand against him.

Different pastors and bishops are going on social media attacking each other. It has been there before between the different denominations but now it is increasing very much.

For Egypt:

Our economic situation is not the best. Prices are increasing and this is making life harder for everyone.

People are dividing up; some with and some against the government and the president. We pray that the atmosphere would be changed, that the negative spirit that is burdening people would break.

Of course, the Lord is doing great things, there is revival and many people are coming to know Him more and more. The darkness is increasing but also the light is shining. We have hope in Jesus.

Pa's Ministry** driver med mange utadrettede team. De har et team som retter seg mot kvinner i hovedstaden, et på universitetet, et team retter seg mot sudanesere, et team i «The heartland» og til slutt et team for trening av arbeidere. Alle disse teamene trenger forbønn på mange områder, og de trenger flere arbeidere. Be for de arbeiderne de har, at de får være fri til sin tjeneste. Be også for dem de når gjennom arbeidet, at de blir modige, og dem som tar imot frelsen, at de klarer å holde fast på denne. Be også for økonomien til de forskjellige teamene, at de må ha det de trenger.

Et annet team som ikke lenger samarbeider med IBRA har følgende hjertesukk og behov for forbønn:

We need a lot of prayer for the viewer we had communication with before, to God to send to them people can continue with especially whom from MB and we start Discipleship with them and now we stop to connect with.

Now we had a time for waiting and praying to know when and how we God went us to continue, we need a lot of prayer to lord to send his wisdom and to knowing his will.
